

CHEETAH

Fast • Maneuverable • On/Off-Road

Troops can now venture where angels fear to tread — off-road — and return home safely. The newest and most nimble of Force Protection's MRAP vehicle series, the Cheetah combines next-generation occupant survivability technologies with the maneuverability of lesser-armored vehicles and HMMWVs. The Cheetah, with 4x4 wheel-drive, run-flat capability and proven ballistic and blast protection, is designed to equally protect driver, passengers and cargo in multiple roles, including reconnaissance, off-and-unimproved-road patrols, forward command and control as well as urban operations. With exceptional power, speed and on-road handling, the Cheetah is also ideal for first response and homeland security missions.

CHEETAH SPECIFICATIONS

BASE WEIGHT:	20,800 LB (9,435 KG)
TOTAL COMBAT WEIGHT:	APPROX: 23,000 LB (10,430 KG)
MAX SPEED:	77 MPH (124 KMPH)
ACCELERATION:	0-30 MPH 10.3 SEC, (0-48/KMPH)
RANGE:	>330 MILES (534 KM)
CAPACITY:	5 CREW/PASSENGERS
PAYLOAD:	2,200 LB (998 KG)
ROOF HEIGHT	97" (2,464MM) (NOMINAL)
LENGTH:	217" (5,512 MM)
WIDTH:	99" (2,515 MM), W/ EFP KIT, 101"/2,565 MM
TURNING RADIUS:	UNDER 27 FT (8.23 M)
MAX SLOPE:	40% SIDE/60% FRONT
SUSPENSION	INDEPENDENT - HEIGHT ADJUSTABLE
GROUND CLEARANCE:	18" (457 MM) VARIABLE
CENTRAL TIRE INFLATION	
FORDING:	36" (914 M) W/O PREPARATION
RIDE QUALITY:	3 TIMES BETTER THAN REQUESTED THRESHOLD
STATUS:	IN LOW RATE PRODUCTION
